

# MOUNT PLEASANT

## 2018 Lovedale Semillon

---

### Growing Conditions

An perfect vintage, warm and sunny with long ripening, resulting in wines of excellent intensity and depth of flavour with the ability to age like the best vintages.

### Aroma

Intense citrus, floral and lemongrass notes combine with the beginnings of classic bottle age characters of lanolin and toast.

### Palate

Concentrated fruits of lemon and lime, beautiful acidity driving through the palate showcasing the amazing length of this wonderful, aged style.

### Vinification/Maturation

Once at the winery the Semillon was destemmed and pressed off skins to stainless steel tank. Here, the juice was cold settled bright before being racked off, warmed and inoculated for fermentation. The juice was fermented with a specific neutral yeast strain chosen to promote the vineyard specific flavours, and fermentation was conducted at cold temperatures to retain those delicate characteristics.
